

# Information Technology (IT) and Cyber Security Training

**IT/Cybersecurity professionals are in demand in Harford and Cecil Counties!**

## Is this career right for you?

Employers in the Susquehanna Region will continue to create many IT and cybersecurity job openings over the next several years. This workforce represents a wide range of occupations and skills; from engineering and architecture to entry level IT specialists and help desk workers. The professional services, finance, manufacturing, and defense sectors have the highest demand for cybersecurity jobs.

## Some of the job duties IT/cybersecurity professionals may perform include:

- Provide technical assistance to computer users.
- Provide assistance concerning the use of computer hardware and software, including printing, installation, word processing, email, and operating systems.
- Analyze, test, troubleshoot, and evaluate existing network systems, such as local area network (LAN), wide area network (WAN), and Internet systems or a segment of a network system.
- Perform network maintenance to ensure networks operate correctly with minimal interruption.
- Plan and carry out security measures to protect an organization's computer networks and systems.

## Job Outlook and Earnings

According to the U.S. Bureau of Labor Statistics, entry level salaries range from \$15.50 to \$29 per hour.

The Susquehanna Workforce Network will host training at Harford Community College beginning Sept 27, 2021 to prepare participants for the A+, Network+, and Security+ certification exams.
